About Us

About Training Australia First

Training Australia First is an RTO providing high-quality training to both domestic and international students in Australia. Training Australia First has modern, up to date facilities, and boasts a team of qualified and dedicated Trainers and Assessors.

We ensure that our training program address the required skills and knowledge demanded by industry which in return increases the employability of our students

Our Philosophy

Our philosophy is simple to provide a service based on Honesty, Integrity, Ethics, Transparency, Responsibility and Quality.

Our mission

Training Australia First mission is to deliver quality-training assessment that meets the needs of learners and industry.

All training provided at Training Australia First is practical and we have adopted hands-on approach to learning supported by theoretical instruction.

Our industry-experienced trainers not only know the training industry but understand the complexities and diverse nature of the employment industry as well. Thus, attaining employment outcomes for those who study/ learn or who are existing workers becoming up-skilled to become employed or to stay in their career of choice.

We understand individuals learn differently and accommodate this in our training to get the best outcome for our clients.

Automotive Courses

AUR31116 Certificate III in Heavy Commercial Vehicle Mechanical Technology

Qualification description

This qualification covers the skills and knowledge required to perform a broad range of tasks on a variety of heavy commercial vehicles within the automotive service and repair sector

Course Duration

- This qualification will be delivered over 52 weeks including 12 weeks of break.
- The classes will be conducted 2 days a week for 8 hours each and 1 day a week for 4 hours.
- Plus, students will need to attend additional 25 hours practice time in the automotive workshop per term.
- Students will also need to put in approximately 8 hours per week towards self-paced learning and assessment.

Note:

All students must participate in Workshop Safety Training at the start of their course, the students will be provided safety training and will be assessed on their safety skills before they are allowed to complete any further training and/or assessment in the workshop.

The actual duration of the course may vary for individual students or different cohorts depending on whether the student needs to attend catch up classes, goes on suspension, if the student changes group mid-way through their course, when the student can attend workshop safety training, when holidays fall, recognition of prior learning, credit transfer, and national recognition.

Educational Pathway

Further training pathways from this qualification include AUR40216 Certificate IV in Automotive Mechanical Diagnosis, AUR40816 Certificate IV in Automotive Mechanical Overhauling or other relevant qualifications.

Career Pathway

Occupational title for this position is heavy commercial vehicle technicians

Assessment Methods

Training Australia First uses a range of assessment methods, which may include:

- Written assessment, Observation

Delivery Methods

Face to face delivery and practicals in a simulated workshop environment.

Entry Requirements

Domestic Students

Training and assessments are conducted in English. Applicants must possess sound written and spoken English skills. Students will be required to complete a pretraining interview and Language Literacy, Numeracy test paper as part of an enrolment interview.

International Students

- Must be 18 years old or over
- Completed year 12 (HSC or equivalent) or relevant industry experience (if applicable)
- Minimum 5.5 IELTS score or equivalent. (if applicable)
- Complete a pre-training interview and a Language Literacy, Numeracy test as a part of enrolment process. Off shore students will need to go through a telephone interview.
