About Us

About Training Australia First

Training Australia First is an RTO providing high-quality training to both domestic and international students in Australia. Training Australia First has modern, up to date facilities, and boasts a team of qualified and dedicated Trainers and Assessors.

We ensure that our training program address the required skills and knowledge demanded by industry which in return increases the employability of our students

Our Philosophy

Our philosophy is simple to provide a service based on Honesty, Integrity, Ethics, Transparency, Responsibility and Quality.

Our mission

Training Australia First mission is to deliver quality-training assessment that meets the needs of learners and industry.

All training delivered at Training Australia First is practical in nature and adopts a hands-on approach to learning, supported by structured theoretical instruction.

Our trainers are industry-experienced professionals who bring both training expertise and current industry knowledge to the learning environment. This ensures training is relevant, up to date and aligned with industry expectations, supporting learners to develop job-ready skills and knowledge applicable to their chosen field or career pathway.

We recognise that individuals learn in different ways and incorporate flexible training and assessment approaches where appropriate, while maintaining the requirements of the training product, to support effective learning outcomes for our students.

Training Australia First provides academic, learning, wellbeing and welfare support services to students. Detailed information about available support services and how to access them is provided in the **Student Handbook**, on the **Training Australia First website**, and during **student orientation**.

Automotive Courses

AUR31120 Certificate III in Heavy Commercial Vehicle Mechanical Technology

Qualification description

This qualification covers the skills and knowledge required to perform a broad range of tasks on a variety of heavy commercial vehicles within the automotive service and repair sector.

Course Duration

- This qualification will be delivered over 52 weeks including 12 weeks of break.
- The classes will be conducted 2 days a week for 8 hours each and 1 day a week for 4 hours.
- Plus, students will need to attend additional 25 hours practice time in the automotive workshop per term.
- Students will also need to put in approximately 8 hours per week towards self-paced learning and assessment.

Note:

*All students are required to participate in **Workshop Safety Training** at the commencement of their course. This training provides students with essential safety knowledge and practical skills relevant to the workshop environment. Students must successfully complete and be assessed as competent in workshop safety requirements before being permitted to undertake any further training or assessment activities in the workshop.*

The actual duration of a course may vary between individual students or cohorts. Factors that may affect course duration include, but are not limited to, the need for additional learning or catch-up sessions, periods of suspension or approved leave, changes in training groups, the timing of workshop safety training, scheduled holidays, and the application of recognition of prior learning, credit transfer or national recognition.

Educational Pathway

Further training pathways from this qualification include AUR40226 Certificate IV in Automotive Mechanical Diagnosis.

Career Pathway

Occupational title for this position is heavy commercial vehicle technicians.

Assessment Methods

Training Australia First uses a range of assessment methods, which may include:

- Written assessment, observation, case scenario and roleplay.

Delivery Methods

Face to face delivery and practicals in a simulated workshop environment.

Entry Requirements

Domestic Students

Training and assessments are conducted in English. Applicants must possess sound written and spoken English skills. Students will be required to complete a pretraining interview and Language Literacy, Numeracy test paper as part of an enrolment interview.

International Students

- Must be 18 years old or over.
- Completed year 12 (HSC or equivalent) or relevant industry experience (if applicable).
- Minimum 6 IELTS score or equivalent (if applicable).
- Complete a pre-training interview and a Language Literacy, Numeracy test as a part of enrolment process. Off shore students will need to go through a telephone interview.
